# 750A

## Panel Features

# Commercial Aluminum Products Made for Tough Environments

### Tongue & Groove Section Joints **1**

Precisely designed section joints reduce air infiltration and create a weathertight seal.

### Anodized Aluminum Frame **2**

Frame members are mechanically fastened at joints creating an exceptionally high strength door frame.

### Standard Insulation **3**

(EPS) polystyrene insulation is optional in the door frame when insulated glass option is selected.

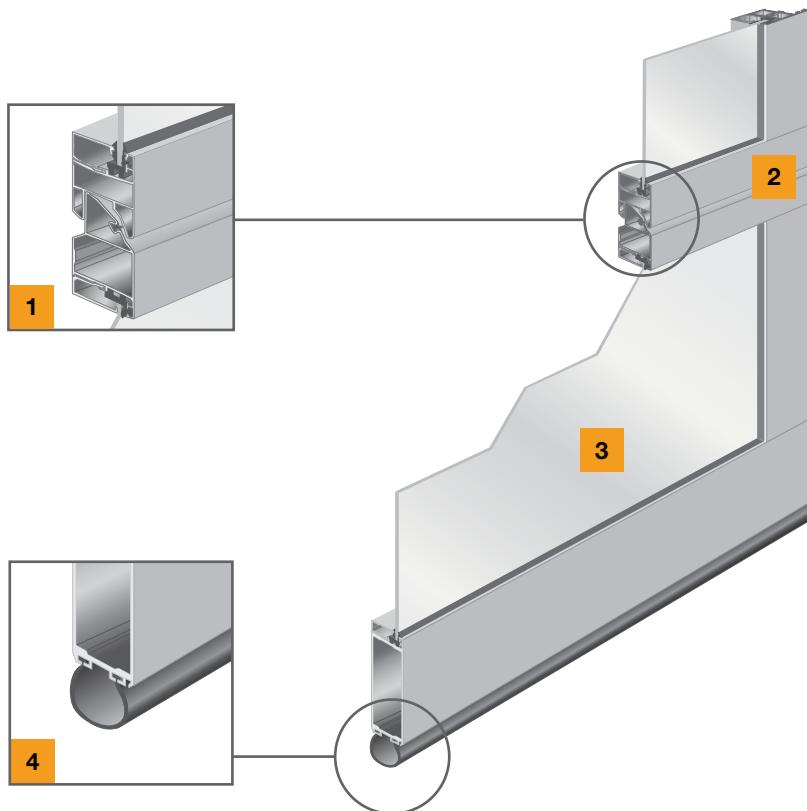

### Glass or Aluminum Panels **4**

Clear tempered glass is standard and many other options are available. Aluminum or perforated panel options also available.

### Bottom Weather Seal **5**

Keeps out wind, rain, debris and other elements for added energy savings.

# Industrial Strength Meets Modern Aesthetics and Unmatched Safety

## FingerGuard™ Section Joints 1

All 720A doors come with Hörmann's exclusive FingerGuard™ pinch resistant section joints. This uniquely designed section joint creates a deep tongue and groove fit for a tight seal between door sections.

## Anodized Aluminum Frame 2

The 1 $\frac{3}{4}$ " thick clear anodized aluminum glazed frames enhance the beauty of a contemporary design and provide years of trouble-free performance.

## Glass Panels 3

Clear anodized aluminum frame with clear single pane tempered glass is standard. The number of windows available depends on door width. Each section is equipped with pre-punched painted end caps, aluminum glass retainers, and between section seal.

## Bottom Weather Seal 4

Keeps out wind, rain, debris and other elements for added energy savings.

### Hörmann Innovations

#### FingerGuard™ Pinch Resistant

The FingerGuard™ section joints and hinges provide an air-tight seal and prevent finger injuries both inside and outside.

#### Perfect for Restaurants & More

Safety, security, and functionality make the 720A an optimum choice for customer-facing storefronts.

#### Nearly Limitless Customizations & Refined Looks

Hörmann's Galaxy Paint System offers a multitude of custom color options. Further customizations also are achievable with a wide range of glass and aluminum sheet finishes.
