4

Deep Tongue and Groove 1

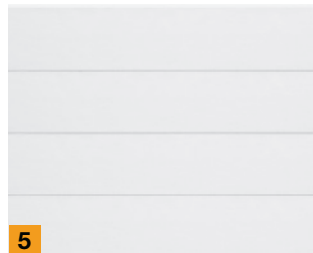

Section joints contribute to the door's excellent strength. Intermediate seals prevent air infiltration, which enhances the insulation properties.

3-Layer Sandwich Construction 2

Steel front and back construction with insulating polystyrene core increases energy savings and provides a very smooth and quiet operation.

Well-defined Panel Embossments 3

Easy to clean woodgrain texture, galvanized and finish painted steel provide years of trouble-free performance and beauty.

Hörmann Innovations

FingerGuard™ Pinch Resistant

The FingerGuard™ section joints and hinges provide an air-tight seal and prevent finger injuries both inside and outside.

Between Section & Side Seals

Factory installed between section weather seals and side seals offer maximum protection from the outside elements while further enhancing the insulation properties of a door.

White 11 Ball Bearing Nylon Rollers

Hörmann nylon rollers feature 11 pre-lubed ball bearings encased in a high strength steel casing that provides a quiet ride and years of reliable service.
